

Dear Bayle museum,

Thank you for letting us visit you this morning. It was really fun to visit. I found out about amazing new stuff, and I went round 3 times to see if I could find some more facts that I might of missed. The most interesting thing I enjoyed was learning about wars and looking at the scale models of ships, cannons and horses and also many other model building packs.

All the rooms were based on events that's happened in Bridlington and memorabilia from people in the past. The funniest thing I learnt about was the messages about ghosts. Phoenix apparently saw a ghost going across the top room but I don't think it was.

Overall it was a fun morning and I enjoyed learning about the history of Bridlington. Thank you once again. Your
Sincerely Thomas, 46 New Pasture Lane
